Case: 2003-00434

Dear Sir or Madam:

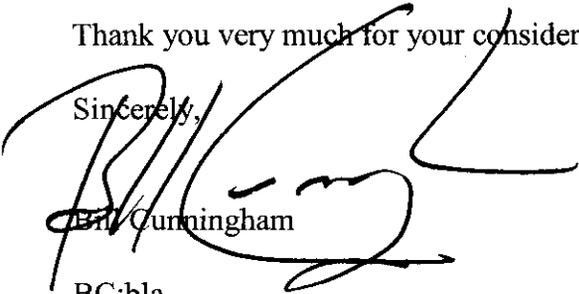

I am in full agreement with the letter now on file submitted to you by Bayless Wadlington of Eddyville, Kentucky.

I too oppose the proposed rate increase to a nine dollar base obligation. Like Mr. Wadlington, I am concerned about the devastating effect that this large increase in cost for electricity will have upon our fixed and low income people. These are the ones that will be hit the hardest and they can afford it the least. The proposal which Mr. Wadlington makes in his letter seems fair and reasonable to me.

Please accept this letter to go on record in opposition to the current plans for the rate increase.

Thank you very much for your consideration of my concerns.

Sincerely,

Bill Cunningham
